

Dynaglas® Limited Warranties

Light Transmission - Hail Breakage - Condensation Control

“Dynaglas®” Corrugated Polycarbonate sheets (hereinafter the “Product”) are hereby warranted by Palram Americas, Inc. (hereinafter the “Manufacturer”), subject to the terms contained herein.

Light Transmission Warranty

Manufacturer warrants that the Product shall not lose more than 10% of its light transmitting capacity for a period of ten (10) years from the Commencement Date (the “Permitted Decrease”) as a direct result of the effect of solar radiation as measured according to the procedures in ASTM D1003-77 (hereinafter referred to as “Decrease”). Decrease is measured by comparing the Product’s original light transmitting capacity vs. a cleaned sample taken from the claim site. Except for this warranty, the Product is not warranted against decrease in light transmission due to natural disasters or any other cause.

Remedies

If over a specific period of time the Product loses a greater percentage of its light transmitting capacity than the Permitted Decrease (i.e., 10% for 10 years), the Manufacturer will at the Manufacturer’s discretion either (i) provide the Owner with free replacement Product or, (ii) refund all or part of the original purchase price paid by Owner, in accordance with the Refund Table listed below. If the Manufacturer elects to make a refund rather than supply replacement Product, the applicable refund percentages are as follows, based on the time elapsed from the Commencement Date to the time the loss is reported to the Manufacturer:

Refund Table

Time Elapsed After Commencement Date	Owner will be refunded this percentage of original purchase cost
End of 5th year	100%
End of 6th year	50%
End of 7th year	40%
End of 8th year	30%
End of 9th year	20%
End of 10th year	10%
After 10th year	0%

Example:

If by the end of the sixth year the Product has lost 12% of its original light transmission capacity, that loss is more than the Permitted Decrease, and it is not in compliance with the Light Transmission Warranty. The Manufacturer would elect either to

provide 100% replacement Product or refund 50% of the original cost of the Product.

Breakage Warranty

Manufacturer warrants that the Product shall not break due to excessive loss of impact strength as a direct and exclusive result of impact of hail measuring up to 1 inch in diameter in size, and attaining up to 20 meter/second (44 mph) in velocity, for a period of five (5) years from the Commencement Date. Loss of impact strength will be determined by testing conducted by the Manufacturer according to ISO 6603/1 1985(E) and/or ASTM D 5628 95 method F, to be applied on a sample of the broken sheet provided by the Owner. The Breakage Warranty applies only if the sample is tested and broken such that water can leak through the sheet. Except for this warranty, the Product is not warranted against breakage due to natural disasters or any other sort of impact.

Remedies

If the Product fails to meet the Breakage Warranty, the Manufacturer will at the Manufacturer’s discretion either (i) provide the Owner with free replacement Product or, (ii) refund all or part of the original purchase price paid by Owner, in accordance with the Refund Table listed below. If Manufacturer elects to make a refund rather than supply replacement Product, the applicable refund percentages are as follows, based on the time elapsed from the Commencement Date to the time the breakage is reported to the Manufacturer:

Refund Table

Time Elapsed After Commencement Date	Purchaser will be refunded this percentage of original purchase cost
To end of 1st year	100%
End of 2nd year	80%
End of 3rd year	60%
End of 4th year	40%
End of 5th year	20%
After 5th year	0%

Condensation Control Warranty

The Manufacturer warrants for a period of Ten (10) years from the Commencement Date, the wetting angle for droplets of water condensing on the interior-facing surface of the Product shall not exceed forty-five degrees (45°). Failure to maintain the foregoing degree of condensation control shall be considered a “Condensation Control Failure”.

The Condensation Warranty shall not apply where the

Dynaglas® Limited Warranties

Condensation Control Failure is caused by:

- Mechanical erosion of the inner surface of the Product, except for the normal erosion by condensation water flow
- Condensate drip at an attachment of the Product to any structural member not designed to collect and/or remove condensation from the panel.
- Condensate drip from clogged or non-functioning drainage and collection systems.
- The inner surface of the Product being affected by unapproved chemicals or cleaning procedures used inside or outside of the greenhouse.

Test procedures

Condensation control will be determined by testing conducted by the Manufacturer according to ASTM D 5725-09.

Remedies

If a claim is covered under the Condensation Control Warranty, the Manufacturer will at the Manufacturer's discretion (i) provide the Owner with a field treatment to the Product, which will bring its performance into compliance with the Condensation Warranty (ii) supply replacement Product or (iii) refund all or part of the original purchase price paid by Owner, in accordance with the Refund Tables listed below. Replacement Product is warranted only for the balance of the Condensation Control Warranty on the original Product. If the Manufacturer elects to make a refund rather than provide a field treatment or replacement Product, the applicable refund percentages are as follows, based on the time elapsed from the Commencement Date to the time the Condensation Control Failure was reported to the manufacturer:

Refund Table

Time Elapsed After Commencement Date	Purchaser will be refunded this percentage
To end of 3rd year	100%
End of 4th year	85%
End of 5th year	70%
End of 6th year	55%
End of 7th year	40%
End of 8th year	30%
End of 9th year	20%
End of 10th year	5%
After 10th year	0%

Example:

If by the end of the sixth year the Product can no longer maintain condensation water droplets with less than a forty-five degree (45°) wetting angle, that loss is not in compliance with the terms of this Warranty. The Manufacturer would elect either to provide 100% replacement Product, provide the Owner with a field treatment to the Product, which will bring its performance into accordance with

the Condensation Control Warranty, or refund 55% of the original cost of the Product.
