DYNAGLAS® Greca/Trapeze (76/18)
Profile Drawing

Side lap fastening solutions for other corrugation profiles are available with minimum order requirements.

Built-In Condensation Control
DYNAGLAS Plus with its unique condensation control, increases light transmission by 30% at peak condensation periods. The sheet also reduces disease resulting from condensation dripping.

Strength and Durability
DYNAGLAS Plus withstands hail and flying debris better than any other greenhouse covering. Its flexibility and tensile strength make it suitable for the harshest climates, including heavy snow and wind loads.

Resistance to UV Radiation
DYNAGLAS Plus withstands the detrimental effects of UV radiation, remaining clear for many years.
